# **QUICK RULES**

To use an ability (COMBAT, THIEVERY, and so on), roll two dice and add your score in the ability. To succeed you must roll higher than the Difficulty of the task.

# Example:

You want to calm down an angry innkeeper. This requires a CHARISMA roll at a Difficulty of 10. Say you have a CHARISMA score of 6. This means that you would have to roll 5 or more on two dice to succeed.

Fighting involves a series of COMBAT rolls. The Difficulty of the roll is equal to the opponent's Defence score. (Your Defence score is equal to your Rank PLUS your armour bonus PLUS your COMBAT score.) The amount you beat the Difficulty by is the number of Stamina points that your opponent loses.

That's pretty much all you need to know. If you have any detailed queries, consult the Adventuring in the Fabled Lands 2 document.

# Adventuring in the Fabled Lands

Fabled Lands is unlike any other gamebook series. The reason is that you can play the books in any order, coming back to earlier books whenever you wish. You need only one book to start, but by collecting other books in the series you can explore more of this rich fantasy world. Instead of just one single storyline, there are virtually unlimited adventures to be had in the Fabled Lands. All you need is two dice, an eraser and a pencil.

If you have already adventured using other books in the series, you will know your entry point into this book. Turn to that section now.

If this is your first Fabled Lands book, read the rest of the rules before starting at section 1 of Cities of Gold and Glory. You will keep the same adventuring persona throughout the books – starting out as just a 2nd Rank wanderer in Cities of Gold and Glory, but gradually gaining in power, wealth and experience throughout the series.

#### ABILITIES

You have six abilities. Your initial score in each ability ranges from 1 (low ability) to 6 (a high level of ability). The lowest possible score for an ability is 1 – you can never have a lower score than that.

CHARISMA the knack of befriending people

COMBAT the skill of fighting MAGIC the art of casting spells

SANCTITY the gift of divine power and wisdom

SCOUTING the techniques of tracking and wilderness lore

THIEVERY the talent for stealth and lockpicking

# **PROFESSIONS**

Not all adventurers are good at everything. Everyone has some strengths and some weaknesses. Your choice of profession determines your initial scores in the six abilities.

Priest: CHARISMA 4, COMBAT 2, MAGIC 3, SANCTITY 6, SCOUTING 4, THIEVERY 2

Mage: CHARISMA 2, COMBAT 2, MAGIC 6, SANCTITY 1, SCOUTING 5, THIEVERY 3

Rogue: CHARISMA 5, COMBAT 4, MAGIC 4, SANCTITY 1, SCOUTING 2. THIEVERY 6

Troubadour: Charisma 6, Combat 3, Magic 4, Sanctity 3, Scouting 2, Thievery 4

Warrior: CHARISMA 3, COMBAT 6, MAGIC 2, SANCTITY 4, SCOUTING 3, THIEVERY 2

Wayfarer: Charisma 2, Combat 5, Magic 2, Sanctity 3, Scouting 6, Thievery 4

Fill in the Adventure Sheet included in the Adventure Pack 2 with your choice of profession and the ability scores given for that profession.

#### **STAMINA**

Stamina is lost when you get hurt. Keep track of your Stamina score throughout your travels and adventures. You must guard against your Stamina score dropping to zero, because if it does you are dead.

Lost Stamina can be recovered by various means, but your Stamina cannot go above its initial score until you advance in Rank.

You start with 13 Stamina points. Record your Stamina in pencil on the Adventure Sheet.

#### RANK

You start at 2nd Rank, so note this on the Adventure Sheet now. By completing quests and overcoming enemies, you have the chance to go up in Rank.

You will be told during the course of your adventures when you are entitled to advance in Rank. Characters of higher Rank are tougher, luckier and generally better able to deal with trouble.

Rank	Title
1st	Outcast
2nd	Commoner
3rd	Guildmember
4th	Master/Mistress
5th	Gentleman/Lady
6th	Baron/Baroness
7th	Count/Countess
8th	Earl/Viscountess
9th	Marquis/Marchioness
10th	Duke/Duchess

# **POSSESSIONS**

You can carry up to 12 possessions on your person. All characters begin with 16 Shards in cash and the following possessions, which you can record on your Adventure Sheet: **sword**, **leather jerkin** (**Defence** +1), **map**.

Possessions are always marked in bold text, like this: **gold compass**. Anything marked in this way is an item which can be picked up and added to your list of possessions.

Remember that you are limited to carrying a total of 12 items, so if you get more than this you'll have to cross something off your Adventure Sheet or find somewhere to store extra items. You can carry unlimited sums of money.

#### **DEFENCE**

Your Defence score is equal to:
your COMBAT score
plus your Rank
plus the bonus for the armour you're wearing (if any).

Every suit of armour you find will have a Defence bonus listed for it. The higher the bonus, the better the armour. You can carry several suits of armour if you wish – but because you can wear only one at a time, you only get the Defence bonus of the best armour you are carrying.

Write your Defence score on the Adventure Sheet now. To start with it is just your COMBAT score plus 2 (because you are 1st Rank and have +1 armour). Remember to update it if you get better armour or increase in Rank or COMBAT ability.

#### **FIGHTING**

When fighting an enemy, roll two dice and add your COMBAT score. You need to roll higher than the enemy's Defence. The amount you roll above the enemy's Defence is the number of Stamina he loses.

If the enemy is now down to zero Stamina then he is defeated. Otherwise he will strike back at you, using the same procedure. If you survive, you then get a chance to attack again, and the battle goes on until one of you is victorious.

#### Example:

You are a 3rd Rank character with a COMBAT score of 4, and you have to fight a goblin (COMBAT 5, Defence 7, Stamina 6). The fight begins with your attack (you always get first blow unless told otherwise). Suppose you roll 8 on two dice. Adding your COMBAT gives a total of 12. This is 5 more than the goblin's Defence, so it loses 5 Stamina.

The goblin still has 1 Stamina point left, so it gets to strike back. It rolls 6 on the dice which, added to its Combat of 5, gives a total attack score of 11. Suppose you have a **chain mail tabard (Defence** +2). Your Defence is therefore  $10 \ (=4+3+3)$ , so you lose 1 Stamina and can then attack again.

# **USING ABILITIES**

Fighting is often not the easiest or safest way to tackle a situation. When you get a chance to use one of your other abilities, you will be told the Difficulty of the task. You roll two dice and add your score in the ability, and to succeed in the task you must get higher than the Difficulty.

# Example:

You are at the bottom of a cliff. You can use THIEVERY to climb it, and the climb is Difficulty 9. Suppose your THIEVERY score is 4. This means you must roll at least 6 on the diæ to make the climb.

# **CODEWORDS**

There is a list of codewords included in the Adventure Pack 2. Sometimes you will be told you have acquired a codeword. When this happens, put a tick in the box next to that codeword. If you later lose the codeword, erase the tick.

The codewords are arranged alphabetically for each book in the series. In this book, for example, all codewords begin with B. This makes it easy to check if you picked up a codeword from a book you played previously. For instance, you might be asked if you have picked up a codeword in a book you have already adventured in. The letter of that codeword will tell you

which book to check (i.e. if it begins with C, it is from Book 3: *Over the Blood-Dark Sea*).

# SOME QUESTIONS ANSWERED

How long will my adventures last?

As long as you like! There are many plot strands to follow in the *Fabled Lands*. Explore wherever you want. Gain wealth, power and prestige. Make friends and foes. Just think of it as real life in a fantasy world. When you need to stop playing, make a note of the entry you are at and later you can just resume at that point.

# What happens if I'm killed?

If you had the foresight to arrange a resurrection deal (you'll learn about them later), death might not be the end of your career. Otherwise, you can always start adventuring again with a new persona. If you do, you'll first have to erase all codewords, ticks and money recorded in the book.

# What do the maps show?

Two of the black and white maps show the whole extent of the known Fabled Lands. The colour map shows the land of Golnir which is covered by this adventure – *Cities of Gold and Glory*.

Are some regions of the world more dangerous than others?

Yes. Generally, the closer you are to civilization (the area of Sokara and Golnir covered in the first two books) the easier your adventures will be. Wait until you have reached higher Rank before exploring the wilder regions.

#### Where can I travel in the Fabled Lands?

Anywhere. If you journey to the edge of the map in this adventure, you will be guided to another adventure in the series. (*The War-Torn Kingdom* deals with Sokara, *Cities of Gold and Glory* deals with Golnir, *Over the Blood-Dark Sea* deals with the southern seas and so on.) For example, if you are enslaved by the Uttakin, you will be guided to *The Court of Hidden Faces* **321**, which refers to entry **321** in Book 5.

# What if I don't have the next book?

Just turn back. When you do get that book, you can always return and venture onwards.

What should I do when travelling on from one book to the next?

It's very simple. Make a note of the entry you'll be turning to in the new adventure. Then copy all the information from your Adventure Sheet and Ship's Manifest into the new adventure. Lastly, rub out the Adventure Sheet and Ship's Manifest data in the old adventure so they will be blank when you return there.

#### What about codewords?

Codewords report important events in your adventuring life. They 'remember' the places you've been and the people you've met. Do NOT rub out codewords when you are passing from one book to another.

#### Are there any limits on abilities?

Your abilities (COMBAT, etc) can increase up to a maximum of 12. They can never go lower than 1. If you are told to lose a point off an ability which is already at 1, it stays as it is.

# Are there any limits on Stamina?

There is no upper limit. Stamina increases each time you go up in Rank. Wounds will reduce your current Stamina, but not your potential (unwounded) score. If Stamina ever goes to zero, you are killed.

# Does it matter what type of weapon I have?

When you buy a weapon in a market, you can choose what type of weapon it is (i.e. a sword, spear, etc). The type of weapon is up to you. Price is not affected by the weapon's type, but only by whether it has a COMBAT bonus or not.

# Some items give ability bonuses. Are these cumulative?

No. If you already have a **set of lockpicks (THIEVERY +1)** and then acquire a **set of magic lockpicks (THIEVERY +2)**, you don't get a +3 bonus, only +2. Count only the bonus given by your best item for each ability.

# Why do I keep going back to entries I've been to?

Many entries describe locations such as a city or castle, so whenever you go back there, you go to the paragraph that corresponds to that place.

# How many blessings can I have?

As many as you can get, but never more than one of the same type. You can't have several COMBAT blessings, for instance, but you could have one COMBAT, one THIEVERY and one CHARISMA blessing.

# **DAVE MORRIS**

Rank: 10th

Dave's interests include role-playing, Tibetan spirit dancing, films, boxing, and food – especially food.

He is often to be found in the Chada restaurant in Battersea, where he can be heard volubly expressing his views on most subjects under the sun.

He is married to one of the bacchantes.

The approach of dawn has turned the sky a milky-grey green, like jade. The sea is a luminous pane of silver. Holding the tiller of your sailing boat, you keep your gaze fixed on the glittering constellation known as the Spider, the sign under which you were born. It marks the north, and by keeping it to port you know you are still on course.

The sun appears in a trembling burst of red fire at the rim of the world. Slowly, the chill of night gives way to brazen warmth.

You lick your parched lips. There is a little water sloshing in the bottom of the barrel by your feet, but not enough to see you through another day.

Sealed in a scroll case tucked into your jerkin is the parchment map your grandfather gave you on his death-bed. You remember his stirring tales of far sea voyages, of kingdoms beyond the western horizon, of sorcerous islands and ruined palaces filled with treasure. As a child you dreamed of nothing else but the magical quests that were in store if you too became an adventurer.

You never expected to die in an open boat before your adventures even began.

Securing the tiller, you unroll the map and study it again. You hardly need to. Every detail is etched into your memory by now. According to your reckoning, you should have reached the east coast of Harkuna days ago.

A pasty grey blob splatters on to the map. After a moment of stunned surprise, you look up and curse the seagull circling directly overhead. Then it strikes you – where there's a seagull, there may be land.

You leap to your feet and scan the horizon. Sure enough, a line of white cliffs lies a league to the north. Have you been sailing along the coast all this time without realizing the mainland was so close?

Steering towards the cliffs, you feel the boat judder against rough waves. A howling wind whips plumes of spindrift across the sea. Breakers pound the high cliffs. The tiller is yanked out of your hands. The little boat is spun around, out of control, and goes plunging in towards the coast.

You leap clear at the last second. There is a snap of timber, the roaring crescendo of the waves – and then silence as you go under. Striking out wildly, you try to swim clear of the razorsharp rocks. For a while, the undertow threatens to drag you down, then suddenly a wave catches you and flings you contemptuously up on to the beach.

You are battered, bedraggled, but alive. Now your adventures can begin. Turn to **559**.

He tells a story of a woodcutter who fell asleep one afternoon and awoke to find it was dark. Having lost his way he was very frightened, but then he saw smoke over the treetops. Going on, he reached a camp where slim young gypsy maidens were dancing around a fire. With smiles and merry laughs, they invited the woodcutter to join them. Now it so happened that the woodcutter's grandmother had been a gypsy, and she'd taught him the traditional greeting that he now called out: Dza devlesa!' which is to say, 'May the gods be with you!' No sooner had the maidens heard this than they all collapsed like matchwood and, creeping closer, the woodcutter saw that there were just piles of mouldering bones in the clearing, and not living people at all.

"...So you know what he did?" concludes the storyteller. "He climbed an oak tree and stayed there shivering until dawn, because he knew that no ghost can follow you up an oak tree."

Owning a ship has two advantages. First, it makes it much easier to travel around. Second, it allows you to get rich by trading goods in bulk.

Goods are transported in Cargo Units. (A Cargo Unit weighs several tonnes – much more than one person could carry!) The more expensive your ship, the greater its carrying capacity. More expensive ships are also more seaworthy.

Choose a ship from the types listed here.

Type	Cost	Capacity
Barque	200 Shards	1 Cargo Unit
Brigantine	400 Shards	2 Cargo Units
Galleon	700 Shards	3 Cargo Units

Record your ship in the box provided on the Ship's Manifest. You get to choose the ship's name. The crew quality is average unless you hire on better sailors. Each time you arrive at a new destination, change the entry in the Docked column to the ship's current location. There are two advantages to owning a ship. First, it makes it much easier to travel around. Second, it allows you to get rich by trading goods in bulk. Goods are transported in Cargo Units. (A Cargo Unit weighs several tonnes – much more than one person could carry!) The more expensive your ship, the greater its carrying capacity. More expensive ships are also more seaworthy.

Choose a ship from the types listed here.

Type	Cost	Capacity
Barque	250 Shards	1 Cargo Unit
Brigantine	450 Shards	2 Cargo Units
Galleon	900 Shards	3 Cargo Units

Record your ship in the box provided on the Ship's Manifest. You get to choose the ship's name. The crew quality is average unless you hire on better sailors. Each time you arrive at a new destination, change the entry in the Docked column to the ship's current location. His story concerns a man who found a copper pot under a tree stump. He wisely left a little silver in this, and was rewarded with health and good luck. There you are, says the snake telepathically. You sense an undercurrent of satisfaction in its mind. Has it tricked you somehow? Is there an even greater treasure behind the other door?

It begins to drizzle with rain. Strolling along, you see seven worried shepherds wading about in the middle of a stream waving their crooks in the air. Their dogs are watching in amazement from the banks. 'Whatever are you doing?' you ask.

'We've decided to herd fish instead of sheep, because you can't sell mutton on Friday,' replies one.

'But now it's raining, we're trying to round the fish up so they don't get wet,' puts in another.

You help yourself to the pirates' treasure, which amounts to 750 Shards. Record it on your Adventure Sheet. Their ship's hold contains 1 Cargo Unit of minerals, which you can add to your own cargo if you have room for it. Your mate advises taking the **pirate captain's head**. 'A grisly trophy, perhaps, but often there's a reward if you have proof you've slain such a devil.'

You also get a chance to increase in Rank after your stirring leadership in battle. Roll two dice, and if the result is greater than your current Rank then you gain a Rank. You also gain 1-6 Stamina points *permanently*: increase your normal (unwounded)

Stamina score by the roll of one die. Remember that going up a Rank increases your Defence.

Once you have made the necessary adjustments to your Adventure Sheet, turn to **358**.

The stranger holds the shell to your ear. At first there is nothing to be heard, but then a spectral voice begins to whisper. It tells you many secrets of ancient wisdom.

Gain one Rank. Going up in Rank will increase your Defence, and also gives you an additional 1-6 Stamina points *permanently* – i.e. increase your unwounded Stamina score by the roll of one die.

Bidding you farewell, the stranger climbs back into his carriage. 'Wait,' you ask. 'Who are you?'

His reply is almost drowned out by the fierce whinny of the horses: 'They call me Dom Daniel.'
